IT / Web Development (Student)  
University VIZJA  
Warsaw, Poland

## SUMMARY

Frontend-focused developer with hands-on experience building interactive web applications using React and TypeScript.

Strong foundation in component architecture, UX-focused design, and modern tooling (Git, Vite, Vercel).

Passionate about writing clean, maintainable code and continuously improving through real-world projects.

## PROJECTS

### TaskFlow — Kanban Task Manager

[taskflow-snowy-zeta.vercel.app](https://taskflow-snowy-zeta.vercel.app)

[github.com/vtrehubenko/taskflow](https://github.com/vtrehubenko/taskflow)

- Drag & drop columns (dnd-kit)
- Filters by title/priority
- TypeScript-first component structure

### Job Tracker — Applications Manager

[job-tracker-brown.vercel.app](https://job-tracker-brown.vercel.app)

[github.com/vtrehubenko/job-tracker](https://github.com/vtrehubenko/job-tracker)

- CRUD for applications
- Form validation + clean UX
- Deployed to Vercel

### JS Atari Asteroids — Arcade Game

[js-atari-asteroid.vercel.app](https://js-atari-asteroid.vercel.app)

[github.com/vtrehubenko/JS-Atari-Asteroid](https://github.com/vtrehubenko/JS-Atari-Asteroid)

- Canvas rendering + game loop
- Physics + collisions
- Keyboard controls

## WORK EXPERIENCE

### Event Staffing Coordinator

Levite Events — Hospitality Staffing Company  
Warsaw, Poland

- Managed shift scheduling, attendance tracking, and payroll documentation
- Handled high-pressure situations requiring fast decision-making
- Quickly responded to last-minute changes, preventing service disruptions
- Coordinated teams of up to 30+ staff members during peak events
- Trusted with operational responsibilities despite being a student
- Acted as a key communication point between management and on-site teams
